

PROFESSIONAL PORTFOLIO

ENG. CHISANGA .O. KAPACHA

PROFESSIONAL SUMMARY

I am a dedicated water professional who is interested in water resources management, hydrological modelling, and catchment management. I have a proven ability to conduct research and work in collaborative teams.

I am committed to promoting environmental sustainability and passionate about implementing strategies that protect and preserve water resources with a proactive problem-solving approach,

EDUCATION BACKGROUND

Msc Water and Environmental **Management** – University of Bristol (UK)

Bsc Water and Environmental Engineering – Hassan II University of Casablanca (Morocco)

PROFESSIONAL BODIES

- Engineering Institution of Zambia (EIZ)
- Chartered Institution of Water and Environmental Management (CIWEM UK)

CURRENT RESEARCH FOCUS

- Analyzing the spatial-temporal variability of water resources in the Zambezi River Basin.
- Identifying the causes of the variability of water resources in the Zambezi River basin.
- Understanding the impacts of the variability on water availability for the key sectors in the basin.

- 
- I am open to collaborating with other researchers and scientists on modelling and climate change-related projects in Africa

THANK YOU FOR YOUR
ATTENTION !
